## California 911 System

CA 911 Outages		
Northern California	Central California	Southern California
No 911 Outages	No 911 Outages	No 911 Outages

### 911 Outages/Remote/Community Isolations:

- None reported.

### Service Interruptions:

- None reported.

# WEATHER OF CONCERN

## Weather of Concern

- A Dense Fog Advisory has been issued for parts of the central San Joaquin Valley until 1100 hours. Visibilities of 200 feet or less can be expected in areas of dense fog.

## **Active Weather Warnings, Watches and Advisories by County:**

- <https://alerts-v2.weather.gov/counties/CA>

# **WEATHER SYNOPSIS BY REGION**

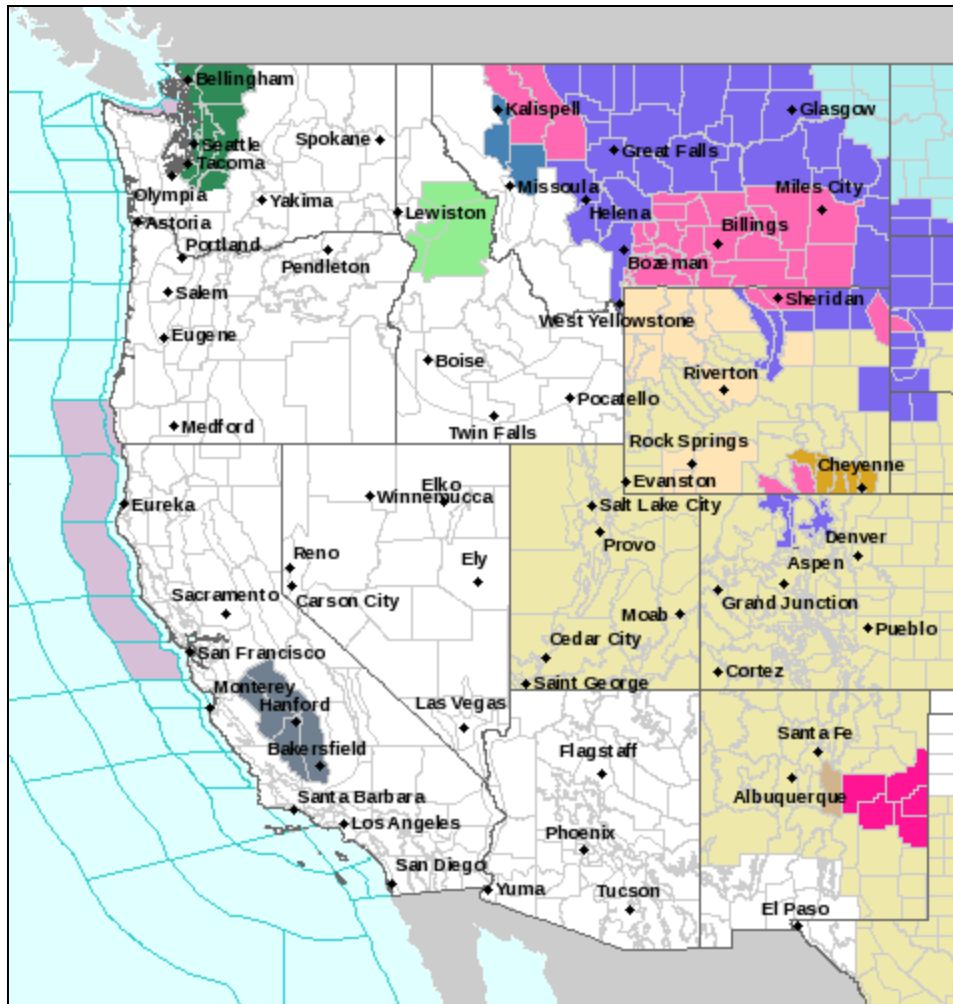

## **NORTHERN CALIFORNIA**

High pressure just off the CA coast will strengthen over the next few days. This pattern will produce mostly clear skies and well above normal temperatures under a dry NW-N flow aloft. Afternoon temperatures will be as much as 20 degrees above normal with minimum Relative Humidity (RH) reaching 18-28%. The winds will spread to the southern end of the Mid Coast Predictive Service Area (PSA) and to wind-prone portions of the Bay Area today, and continue down the western Cascade-Sierra slopes and throughout the Sacramento Valley and surrounding foothills. The peak winds will be around sunrise today, with the highest gusts reaching 35-45 mph. These winds will die off tomorrow afternoon, but another similar round of gusty N-NE winds is expected Monday night and Tuesday. Computer models are showing a potentially stronger wind event late next week and into the weekend. At this time computer models are showing this warm, dry and occasionally windy pattern lasting into the middle of February.

## **SOUTHERN CALIFORNIA**

A ridge of high pressure will barricade itself along the west coast, maintaining sunny skies, well above normal temperatures and low daytime RH through the period. However, some patchy night and morning low clouds and fog will be possible across the San Joaquin Valley due to strong inversions. Temperatures through the weekend will range from the 50s to lower 60s in the mountains to the 80s across the foothills and lower elevations of the region. Minimum RH will continue to drop into the 10-15% range for 6-8 hours each day. A minor amount of cooling will take place Monday and Tuesday, but the middle of next week looks even warmer with highs possibly surpassing record high readings next Wednesday and Thursday. Light offshore winds will be possible during the middle of next week. No rain is indicated by any of the long range models through the middle of the month.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2017-LAW-45043, 01/30/18, 1245 hours:** Modoc County Sheriff's Office requested the use of an Avalanche/Snow search dog to search for a missing person in the California Pines area of Modoc County. The male subject has been missing for 10-14 days. The State K9 Coordinator was notified of the request. A dog team from Wilderness Finders Search Dog Team (WOOF) accepted the mission and will respond on 02/03/18, to conduct the search. **Mission Ongoing**

# **Cal OES MISSION TASKING**

## **Cal OES Missions**

- **2017-Cal OES-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene).
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County.
- **2017-SOC-44022:** Two E-BAM (air monitors) from Air Resources Board/Office of Emergency Response to monitor smoke from the Thomas Fire. Location one: Olga Reed Elementary School (480 Centennial St., Los Alamos); Location two: Carpinteria City Hall (5775 Carpinteria Ave., Carpinteria) (On Scene).
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene).
